

Louver lighting fixtures

QUAZAR

Modern lighting fixture designed for installation into suspended, plaster-cardboard and modular 600x600mm ceilings.

Special attention should be paid to innovative construction of parabolic reflectors placed over fluorescent lamps and connected with miniature parabolic louvers mounted directly on the light sources. This innovative solution makes Quazar an exceptional and sole lighting fixture of this type on the Polish market. Its advantage is not only great facility during light source replacement but also a unique, modern design, so important in current lighting trends.

Moreover, high lighting parameters of Quasar enable it to satisfy needs even of the most demanding customers and investors.

Dimensions: 595x595x52mm

Materials: powder painted steel body, optical system made of high purity anodized aluminium

Available wattages: 4x14W, 4x24W
