**2. Installation**

- take the luminaire out of the package and put it on a sturdy surface (a table or floor)
- loosen the screws (doesn't apply to INOX and GK version) and take the cover off, take the frame off
- place expansion bolts accordingly to the holes pattern in the base of the luminaire (wall/ceiling installation)
- screw in 4 wire regulators in the surface installation holes (suspended installation)
- power supply connection
  - put a power supply cable through the hole in a base of the frame
  - connect the cables accordingly to the markings on the connection terminal
- wall, ceiling and pendant installation
  - luminaire is fixed to the ceiling or a wall using 4 holes of 6,5mm diameter, the sticker on the side of the base determines the direction of the suspension (INOX – wall mounted)

- suspended installation

Screw in wire regulators, fix the suspension to the ceiling, loosen the nut of the regulator, slide in the wire until the luminaire is at the required height and tighten the nut back.

Sliding the wire deeper will cause the luminaire to be mounted higher. In order to lower it – loosen the nut and push it towards the luminaire – the wire will start to slide out.

g) put the cover back (INOX) or screw it back into place

### 3. Important warnings:

- the manufacturer cannot be considered liable for any damages deriving from improper, wrong and unreasonable use of the fitting.
- luminaires may be installed by qualified personnel only.
- any manipulation inside the luminaire when power supply is on causes the risk of electric shock.
- manufacturer is not responsible for any flaws caused by avoid using this manual.
- manufacturer reserves a right to change the construction of the product.

Light source used in this luminaire should be changed by the producer or its service representative or similarly qualified person. Installation kit supplied with the luminaire does not include anchors for ceiling installation.

The European Directive 2002/96/EC on waste electrical and electronic equipment, requires that electric and electronic devices must be disposed of in the normal household waste. The crossed out wheeled bin is reproduced in order to remember obligations towards separately collection. For correct disposal, please use authorized waste disposal facilities or returned to the distributor at the date a new lighting fitting is purchased. Lamps, if disposed together with the lighting fitting, shall not be broken up since they contain substances which are highly polluting for the environment. Unauthorized disposal of the foregoing waste material is punishable by law.
