Caution: Risk of electric shock!

Waste Electrical and Electronic Equipment (WEEE) Notice. In accordance with the provisions of the Polish Act of 29 July 2005 on Waste Electrical and Electronic Equipment, it is prohibited to dispose of waste equipment marked with the crossed-out wheeled bin symbol together with other waste. Users intending to dispose of this product are required to deliver the waste electrical or electronic equipment to an appropriate collection point. Collection points are operated, among others, by wholesale and retail distributors of such equipment, municipal organizations engaged in waste collection activities, and recycling organizations. These legal requirements have been introduced to reduce the amount of waste generated from waste electrical and electronic equipment and to ensure appropriate levels of collection, recovery, and recycling. Further information on the applicable regulations is available on the website of the Polish environmental authorities: <http://www.gios.gov.pl>.
